

PMA Power of Art Hackathon

March 11—13, 2016

List of Art Object Information Fields

FIELD NAME	DEFINITION	NOTES
ObjectID	Internal unique identifier within our collection database.	You can see it in the URL of the object's page in the PMA online collection.
ObjectNumber	External unique identifier.	Many object or accession numbers contain letters and punctuation that help identify an object's component parts. Object numbers generally follow the pattern: [year of accession]-[lot number]-[object number] 1977-33-1 is the first object in the 33 rd accession lot from the year 1977.
Image Filename		Files are all jpegs, and file names include the object number.
Artist Name 1	Name, life/active dates, and nationality of the artist or maker of the object and their relationship to the object's creation.	Many works are collaborations, like a hackathon team. You wouldn't want to jilt your teammates out of their credit, so please don't omit an Artist Name 2-7.
Artist Name 2		
Artist Name 3		
Artist Name 4		
Artist Name 5		
Artist Name 6		
Artist Name 7		
Title of Work 1	The title(s) used to name and describe a work of art.	
Title of Work 2		Secondary, tertiary, etc., titles are often in other languages or are series titles.
Title of Work 3		
Title of Work 4		
Date	Description of the date, range of dates, period, or dynasty during which an object was created.	
Date Search Begin	The earliest date at which the object might have been created.	
Date Search End	The latest date at which the object might have been created.	
Medium	Text description listing the materials, techniques, and supports which comprise the object.	

FIELD NAME	DEFINITION	NOTES
Materials	Comma separated value list of terms from the Getty Art and Architecture Thesaurus (AAT) describing the materials used in the creation of the object.	The AAT is available as Linked Open Data (LOD) . Resources on the Getty LOD are available for download .
Techniques	Comma separated value list of terms from the AAT describing the techniques used in the creation of the object.	
Supports	Comma separated value list of terms from the AAT describing the supports used in the creation of the object.
